Add-or-Drop Selection will be available from Sep.5~23

Dear all,

The dates for Add-or-Drop Selection start from Sep.5 to Sep.23. Subjects with limited numbers of students will be **randomly assigned every day**. (No first-come, first-served).

You can view the total number of students on a waitlist for a course via "Latest Course Enrollment Status". If you want to be enrolled into a course or class that is full, download the "Add Form" via "Tsing Hua Academic Information System" which you can over-enroll in a class but you need approval.

Inter-school selection are also available during this period.

Starting from fall 2019, the requirement of core GE courses for undergraduate students has changed from at least 4 courses from 4 dimensions to 4 courses from at least 3 different dimensions. For more information, please contact the [Center for General Education](#).

After courses are added or dropped, always check your Schedule of Classes to see if those courses were successfully added or dropped.

Best regards,

Division of Curriculum
